

Our Cyclists

The Change a Life Cycle Tour has gained a reputation as one of South Africa's leading fundraising tours and attracts the highest calibre of executive cyclists as a result. A growing waiting list bears testimony to the quality of the tour and the strength of the Change a Life brand. It has offered participants an elite, exclusive networking opportunity, conducive to relationship building and deal-making.

The reputation and success of the Change a Life Cycle Tour is attested to by the fact that many of the business leaders who have participated are repeat participants, with many executives on our waiting list for an opportunity to participate in future. Change a Life attracts chairmen, chief executives and directors across the broad spectrum of financial services, telecommunications, hospitality, healthcare and nutrition, security, legal and management consulting industries.
